

# Medical Paper

(Rolls of paper for medical treatment couches or beds / Dental paper)

**Paper protection rolls for covering medical treatment couches** and day-beds are used in all clinics, hospitals, doctors' and physiotherapists' premises.

These paper rolls are available in different sizes from 39 cm up to 59 cm width x a roll length of 50 m and several paper weights. The paper is available in white, blue or green. The perforation lengths are at 30 cm intervals.

Medical paper for covering medical treatment couches and day-beds is high tear-resistant also when wet and absorbent.

**Dental Paper** is used in dental surgeries as a hygienic liner for sterile instrument trays and also for the dental unit's deposit table for instruments while in use.

Dental paper is available in different sheet formats and in different paper weights. The paper is available in white, blue, yellow, green, lilac, orange or pink.

Dental paper is high tear-resistant also when wet and absorbent.

Medical paper is pure-grade paper, made at the company's paper-mill at Netstal, in Switzerland, free from all environmental pollutants. All our white paper is made from ECF or TCF-bleached pulp; all pulp is supplied from certified, sustainable forestry operations. Only wood-free virgin pulp is used for our paper without any recycled content; it is also tear-resistant when wet and absorbent. The resultant base paper is regularly tested by an independent laboratory, ISEGA, to whose safety standards it conforms. The quality of our medical paper products is subject to defined and regularly monitored standards conforming to DIN EN ISO 9001.
